

MF

Hi, I am Mukund Fegade

Welcome to my professional portfolio.

About Me

Computer Science Student @ PCCOE

Individual with a passion for solving problems and building software. Specializing in Data Structures, ML, and Frontend Development. I thrive in environments that challenge my technical skills and allow me to grow within a team.

Technical Skills

Languages

C++, Python, MySQL, HTML/CSS

Data Science

Machine Learning, Deep Learning, BERT, Power BI

Tools

Git, GitHub, VS Code

My Projects

MACHINE LEARNING

Mental Health Sentiment Analysis

Utilized BERT to classify and analyze mental health-related sentiments in text data, helping identify patterns in emotional well-being.

Python BERT / NLP

[View Code](#)

WEB DEVELOPMENT

Modern Calculator

A sleek, responsive calculator built with HTML5 and CSS3. Features a clean UI with hover effects and grid-based layout logic.

HTML5 CSS3

[Live Demo](#)

CYBERSECURITY**Data Encryption & Decryption**

Implemented cryptographic algorithms using C++ data structures to secure and retrieve sensitive information efficiently.

C++ **DSA**[View Source](#)**DATA ANALYTICS****Market Basket Recommender**

Analyzed consumer purchasing patterns using Python to identify associations between products, visualized in Power BI.

Python **Power BI**[View Dashboard](#)**DATA SCIENCE****Climate Analysis & Rainfall Prediction**

Developed a predictive model to analyze climate patterns and forecast rainfall based on historical weather datasets.

Pandas **Matplotlib**[View Analysis](#)**Contact Me**
